Research Assistant at the Computational Cognitive Neuroscience Lab at Rutgers University in Newark

The Rutgers University Mind Brain Analysis (RUMBA) research group under the direction of Dr. Stephen Hanson and Dr. Catherine Hanson is looking for interested undergraduates to participate in all aspects of the research lab. We are accepting applications now through February 5th.

Our Research: We broadly study high-level cognitive processes such as language, categorization, and reasoning using computational and algorithmic techniques with the goal of furthering fundamental understanding of brain mapping and its implications for brain function. More information about our lab can be found at https://sites.google.com/site/rumbalab/

How to Apply: If you would be interested in applying, please send the following information to our graduate student Leyla Caglar (lcaglar@psychology.rutgers.edu) with the subject line “Research Assistant”.
1. A brief cover letter explaining your interest in the lab, relevant coursework, and research experience.
2. Resume highlighting your research experience.
3. Unofficial Transcript
4. Name, title/position, and contact information of a person who would be willing to be a reference
5. Tentative weekly availability during the coming semester and summer detailing the hours you will generally be available Mon. – Fri. (please do not include unavailable hours).

If you have any questions about the application and/or selection process, please contact Leyla Caglar at lcaglar@psychology.rutgers.edu
